

**DrainGap™****DrainHub®****Multi-Port Drain Adapters**

# They're like power strips for drain connections.

Every plumber and installation technician knows the frustration. Appliances like water-treatment systems, beverage machines, dishwashers and washing machines all require drain connections—and it's easy to run out of space, fast.

Thankfully, now there are DrainGap™ and DrainHub® Multi-Port Drain Adapters. These certified and patent-pending fittings easily accept multiple drain connections in one small hub—saving space, cost and time.

Models DH152, DH154, DH158

## Mind the gap.

For installations that require air gaps, DrainGap has a first-of-its-kind integrated air gap to ensure code compliance and virtually eliminates splashing for up to four drain connections in one small hub!
